

Flea, Tick, Worm. In Food Supplement For Dogs

The Mr Slobberchops powder is part of a range of products created with Fleas, Ticks and Intestinal Hygiene in mind.

Made for the whole of the dog, from the inside out, with 100% natural ingredients.

Our products are made for all dogs, but could suit those more sensitive dogs as well. As always, this will depend on the individual. Try using half the dose to start for one week and build up to the suggested dosage.

Mr Slobberchops unique **“in food” blend** firmly bolts down the multi- level approach when used alongside the **natural Flea & Tick collars** or **Spot-Ons**.

### **We prefer to prevent rather than treat**

Ingredients: Neem Leaf, Basil Leaf, Pumpkin Seed Extract, Peppermint Leaf, Astragalus Root, Yucca, Calendula, Ginger Root

### Suggested Amounts

Dogs below 7kg 1/8th teaspoon or very small pinch once daily.

Small to Medium dogs from 7kg to 17kg ¼ teaspoon once daily

Medium to Large Dogs 18kg to 28kg ½ teaspoon once daily

Dogs over 28kg 1 teaspoon once daily.

### For Dogs Only

Suitable from 12 weeks or age. Not for use on pregnant or whelping bitches

This supplement does not replace a balanced diet
